Forecast for Wednesday 20 Dec 2023

Weather: Frequent heavy showers during the early hours of Wednesday, easing off for a time before widespread low cloud and rain soon pushes in from the northwest. Rain heavy at first but easing during the morning, however persisting through the rest of the day, accompanied by strong winds throughout. Rain turning patchy during the evening.

Chance of cloud-free hill tops above 600m: 40% during the early hours, soon reducing to 20% around dawn.

Low Cloud and visibility: Few or scattered cloud base 600-800m during the overnight period, becoming broken 500-700m around dawn, persisting through the day. Visibility moderate in rain or showers, poor in hill fog.
